1918.

Entered at Stationers' Hall.

PREFACE.

THIS fortieth volume of the Clydesdale Stud Book is one of the largest yet published. The relative numbers of entries in it and in the two volumes immediately preceding are shown in the following table:

	Vol. XL.	Vol. XXXIX.	Vol. XXXVIII.
Additional Produce,	3202	3027	" 3055
Mares with Produce,	2089	2045	1852
Stallions,	283	350	373
	5574	5422	5280

Increase over Vol. XXXIX., 152.

Only one competition took place in connection with the Cawdor Cups in 1917. As no Summer Shows were held the Cup for Mares and Fillies was not competed for. The Cup for Stallions was as usual competed for at the Glasgow Stallion Show held on 8th March, and was won by Mr. J. P. Sleigh's home-bred stallion Kismet (18,417), from St. John's Wells, Fyvie, Aberdeen. His photograph taken in 1917 by Messrs. A. Brown & Co., Lanark, is reproduced in this volume. It is worthy of note that both the sire, Dunure Footprint (15,203), and the dam, Moira (33,747), of Kismet, won the Cawdor Cup, and Moira was also bred by Mr. J. P. Sleigh.

Special attention is hereby directed to corrections on certain entries made in previous volumes.

The entries of mares Lady Lilian (14,644), Princess Sturdy (29,870), and Princess Molly (33,071) with produce as in Vol. 36, p. 124, are hereby cancelled. The entries of Princess Lily (16,802), Princess Sturdy (29,870), and Princess Molly (33,071) with produce in this volume, page 133, take the place of these cancelled entries.

Jean of Morriston (32,560), Vol. 35, p. 463. The produce recorded in Vol. 35, p. 463, as out of this mare, Jean of Morriston (32,560), is not out of her but out of her daughter, Lyonston Jessie (42,908), page 383 in this volume. The pedigree of Dunure Calibre (40,285), Vol. 38, p. 619, is hereby corrected in accordance with

this finding. The only other produce of Jean of Morriston (32,560) besides Lyonston Jessie (42,908) was Dora of Hornshill (43,479), p. 495 in this volume.

Meg of Crookdyke (29,711) with produce as in Vol. 39, p. 102, is hereby cancelled. The correct entry appears in Vol. 39, p. 251.

Molly Tindal (39,412), Vol. 39, p. 452. This mare had no produce in 1915. The entry of Nellie Tindal as her produce in that year is hereby cancelled.

Rose of Earnside (42,035), Vol. 39, p. 602. The entry of this mare and produce at this place is hereby cancelled. No such mare as Rose of Earnside (42,035) ever existed.

Crichton Columbine (40,700), Vol. 39, p. 339. This pedigree has been published in a confused form. It appears correctly as produce of Crichton Princess of Clay (16,013), Vol. 35, p. 47, and in this volume is correctly extended on p. 750.

These corrections and others which will be found in Appendix A are referred to here in order to emphasise the importance of breeders and owners carefully reading the proofs of their entries when these are sent to them. The proofs are sent in order that they may be revised by entrants, and it is very disappointing to be told, as the Editing Committee has been by one entrant, that he never reads his proofs. It may safely be affirmed that not one of the corrections referred to would have been required had the proofs been carefully revised and corrections notified to the Secretary within the time allowed for that purpose.

Attention has been drawn to other two errors, one in Vol. 38, and the other in Vol. 39. These errors, although easily accounted for by those acquainted with the technique of printing by linotype, are difficult to explain to the uninitiated.

The first occurs in Vol. 38, p. 383. Mr. Robert Graham's mare is not Bess of Scugg House (39,060). The first line of entry should read

Jess of Bridgebank (39,061), bay, white stripe on face and white mark. In this case a technical correction fell to be made, but instead of recasting that first line the operator's eye caught the first line of the entry immediately above, which was repeated.

So also in the course of correcting a technical flaw in the printing of particulars of produce of Hillhead Ethel (41,808), Vol. 39, p. 557, the entry of the produce of the mare immediately preceding was in like manner repeated. The details of produce of Hillside Ethel (41,808), should read :

3rd May, 1916, Hillside Chrissie, bay, star on face, near hind pastern

and inside of off hind pastern white, filly, by Dunure Wave (17,878), Vol. 36.

The following words as Prefixes and Affixes are reserved for the owners whose names are given. These reserved words cannot be used by other breeders or owners, and it would be a great favour were breeders and owners to consult this list before naming horses.

The following were the Rules and Regulations governing entries in this Volume:—

GENERAL RULES.

1. All entries when lodged become the property of the Council, and are received subject to the decision of the Council, to whom is reserved full right to investigate, amend, or alter, and to publish in the original, or in an amended or altered form, or not to publish, any or every pedigree presented for entry; and no pedigree lodged with the Council can thereafter be withdrawn or altered by the entrant or other person, except by the written authority of the Council.

2. The Fortieth Volume will contain pedigrees of Stallions foaled before 1st January, 1917, and Mares having produce foaled on or before 31st August, 1917.

3. The last date for issuing schedules at ordinary fees will be 31st August, 1917.

N.B.—*Entries on Schedules A and B applied for after 31st August, 1917, will be charged 50 per cent. additional fee. No Schedule for Vol. XL. will be issued after 1st October, 1917.*

4. All entries must be made on the Society's Official Forms. Particulars should be written in a clear legible hand. As far as possible, entries should be POSTED to the Secretary at the Society's Registered Office, 93 Hope Street, Glasgow.

5. The Secretary cannot undertake responsibility for entries handed to him otherwise than through the Post Office. Unpaid entries are received at the risk of the senders.

6. Entries unpaid at time of going to press are not guaranteed insertion. The necessary fees should accompany each entry, and payments made by Cheque should include Bank charges.

7. The name and address of the breeder of every animal whose pedigree is sent for registration must be given on the entry form.

8. The age, colour and white markings of every animal should, if possible, be given. In the case of Young Stock still in the possession of entrants this will be imperatively demanded, and *breeders and owners are requested to be very careful in stating marks.* An error in the description of an animal may lead to serious consequences. Regarding the distinction between BAY and BROWN it should be noticed that "Bay" is the lighter colour; "Brown" stands mid-way between "Bay" and "Black."

9. Names already appropriated in the Stud-Book should not be made use of. The Council will reject names already in the Stud-Book.

10. All foals must be registered in the volume first published after their birth. When this is neglected double fees will be charged.

PEDIGREE RULES.

11. In the case of Stallions and Mares whose pedigrees trace back to a mare already numbered, the dam must be registered (numbered), and all eligible lapses of dams in the pedigree must be numbered back to the earliest dam in a pedigree which is numbered. The fee for entry of these lapsed dams is fixed at 2/6 each, whether they be entered by members or non-members, and this fee must be paid by the present entrant of stallion or mare. The certificates on entry schedules must satisfy the Editing Committee.

12. Any Stallion, or any Mare which has produced a foal, may be registered, if got by a registered (numbered) sire, and out of a mare (got by a registered sire), any of whose produce has already been registered (numbered).

Failing compliance with RULE 12, the following Rules will apply :

STALLIONS.

13. A Stallion foaled before 1890 must be got by a registered (numbered) sire, and his dam must be got by a registered (numbered) sire. The name and address of the breeder of the dam must in every case be given.

14. A Stallion foaled in or after 1890 must be got by a registered (numbered) sire out of a registered (numbered) dam, or he must have a pedigree showing three registered (numbered) crosses—that is to say, his own sire, the sire of his dam, and the sire of his gr.-dam must be registered (numbered). In every case the name and address of the breeder or breeders of the dam and gr.-dam must be given.

MARES.

15. A Mare can only be registered (numbered) which has produced a foal, but females which have been sold for exportation will be numbered irrespective of this regulation, provided they be already registered as produce of their dams, and be re-entered now on Schedule D. (Pink).

16. A Mare foaled before 1890 must be got by a registered (numbered) sire, and her dam must be got by a registered (numbered) sire. The name and address of the breeder of the dam must in every case be given.

17. A Mare foaled in or after 1890 must be got by a registered (numbered) sire out of a registered (numbered) dam, or she must have a pedigree showing three registered (numbered) crosses—that is to say, her own sire, the sire of her dam, and the sire of her gr.-dam must be registered (numbered). In every case the name and address of the breeder or breeders of the dam and gr.-dam must be given.

18. The additional produce of Mares already entered in previous volumes must be registered by the owners of the respective Mares at the dates of foaling of such additional produce, or, in the event of its being impossible to obtain a certificate of the foaling of such additional produce from the owner of the Mare at the date of the foaling of such produce, the fact that the alleged produce of any registered Mare, foaled after the date of the original entry of such Mare, is her *bona-fide* produce, must be otherwise proved to the satisfaction of the Council. Only by strict attention to this Rule is it possible to apply Rules 14 and 17.

N.B.—Nothing in the foregoing Rules will be held as disqualifying any animal for registration which could have been registered under the Rules governing entries for Vol. XIX.; but no horse foaled after 1893 will qualify stock for registration unless he be himself registered (numbered).

The Editing Committee under whose supervision this volume was compiled was constituted as follows :

MR. J. ERNEST KERR, of Harviestoun, <i>President.</i>	} <i>ex-officiis.</i>
MR. JAMES KILPATRICK, Craigie Mains, <i>Vice-President.</i>

THE CLYDESDALE STUD-BOOK.

VOLUME FORTIETH.

Special attention is directed to the preceding Errata Pages.

The arrangement of this Volume is the same as formerly.

The Second Editions of Vols. I. to VI. should be consulted for numbers referring to either of these Volumes.

Foals entered in this Volume and distinguished by an asterisk are not qualified to receive numbers in subsequent Volumes.

M.B. signifies Mating Breeder. F.B. signifies Foaling Breeder.

Marks of interrogation indicate that the identity of the animals whose names they follow has not been established.
